HIGH WATER RETENTION

OPTIMIZES CROP GROWTH
AND MINIMIZES NUTRIENT AND
WATER LOSS

PRO-MIX® CCX AGTIV® AMPLIFY™ is a 100% coco growing medium that will unlock your plants' maximum potential.

This premium coir blend offers the ideal water retention and air circulation combination, fostering optimal plant growth conditions.

Ideal for high water retention and a perfect formula for high-value crop producers who want to promote strong roots and better yields.

100% COIR

HIGH POROSITY

IMPROVES ROOT SYSTEM HEALTH
BY INCREASING AERATION AND
DRAINAGE

PRO-MIX® CPX AGTIV® AMPLIFY™ is a 70/30 coco coir and perlite growing medium.

A blend that combines premium coir with horticultural-grade perlite, creating a lightweight medium with high porosity.

Ideal for better aeration and drainage, allowing high-value crop producers to feed their plants without overwatering.

THE PERFORMANCE OF COIR WITH THE POWER OF BIOLOGICALS

AGTIV AMPLIFY

AGTIV® AMPLIFY™ promotes an amplified root system and better absorption of nutrients and water. It fosters faster germination, increases resistance to transplant shock, and optimizes growth rate and uniformity.

This combination streamlines cultivation, reduces transplant losses, and improves overall crop productivity, thanks to Bacillus and Mycorrhizae.
